

LIGHTHOUSE BAPTIST CHURCH HICKMAN, NE

THE HOWELLS

August - September Update Letter

Dear Praying and Supporting Churches,

What an amazing God we have. In the past few months, we have had the opportunity to hand out hundreds of tracks throughout the town and surrounding area of Hickman. During Hickman's annual "Hay Days" we were able to be a part of the Hay Days parade. We built a seven-foot-tall lighthouse that we put on the back of a trailer and our church people walked along side giving out tracks and candy to kids and adults lined up on the streets. Only God knows what will become of the seeds that have been planted.

We have also begun our Thursday evening soul-winning program. The first night I may have been a little discouraged when only my family showed up, but we went out anyway and had some opportunities to share the gospel. The next Thursday almost the entire church showed up. We even had a gentleman who could only use a walker show up. He filled his pockets with tracts and went down to the Thursday night local farmer's market and began handing them out to everyone. What a blessing and encouragement it was to see everyone helping get God's Word out.

Along with the soulwinning efforts I have had more opportunities to share the gospel with some of my co-workers. The other night one of my managers, who is going through a particularly hard time, came to my office and began asking me how someone knows if they are saved. For the next twenty minutes I was able to share the gospel in detail with the manager. Only God can work in people's lives like this. It is amazing to watch people with a heart that's searching for answers come to find it in the Word of God and His free gift of salvation.
